

HAVE YOUR SAY!

On Spilsby's Future

Spilsby Town Council (STC) is seeking to increase engagement with local residents in order to produce a Neighbourhood Plan. This document gives communities power to develop a shared vision, in order to shape the development and growth of the local area.

Recently STC were approached by East Lindsey District Council regarding a proposed development of 450 houses. This would be a staged development over a period of years, in order to meet housing demand. This will of course bring both challenges and rewards to our town. It is important for your thoughts to be collated in order for STC to act as your voice.

This is your opportunity to be heard through filling out the feedback form on the reverse of this leaflet. Once completed, this can be returned to locations listed on the feedback form.

Alternatively you can visit the STC stand in the marketplace on Monday 13th July.
